

(COOL) FUN AT HOME : DAY 4

SPACE

EXPLORE OUTSIDE

STAR GAZING: This is great for both the early risers and the night owls of your family! Download the free app Star Tracker and Let StarTracker guide you to explore the universe. Just hold up and point the device to the sky and have fun! The app can be found on iTunes or Google Play.

LEARN

WHAT ARE STARS? What are stars and how do they work? Head over to [SciShow Kids](#) to find out all about stars!

CREATE A SHUTTLE STOMPER. Try this aerospace challenge from [The Maryland Science Center](#) and see how high you can get your straw shuttle to soar!

CREATIVITY CHALLENGE

DESIGN YOUR OWN ROCKET SHIP! Create a rocket ship that could take you to another planet! Join Ms. G-H from The St. Paul's Schools on an [adventure through space](#) with a special friend.

MAKE CONSTELLATION ART CARDS. Before you go star gazing, make your own constellation art cards! [Here's the tutorial.](#)

MOVE

BLAST OFF LIKE A ROCKET! Blast off like a Rocket, Leap like a shooting star or spin like a Galaxy! [Download these gross motor cards and cubes](#) by 3 Dinosaurs for some "out of this world" fun and start moving.

EAT

HEALTHY MOON CAKES!

Spread peanut butter, cream cheese, or jelly onto a rice cake, english muffin, or round piece of bread. Use sliced fruit (like bananas or kiwis) and put a few slices on the rice cakes. Sprinkle Cheerios® or other fun cereal on top of the moon "cake."

STORY TIME

STORY TIME FROM SPACE

Watch astronauts on the Space Station [read children's books](#) and perform science demonstrations! Science, literacy, and FUN? That's a win for everyone!
