

EARTH WEEK EDVENTURES!

# RAINFOREST

## EXPLORE OUTSIDE

**RAINFOREST WALK:** It's time to get wild! While outside today, have your child imagine that they are an animal living in a rainforest. Challenge them to swing like a monkey through the trees, march like a leafcutter ant, fly a Toucan, leap like a lemur, jump like a tree frog, and creep like a jaguar!

## LEARN

**TWO KINDS OF RAINFORESTS:** Does your child know that there are 2 different types of rainforests in our ecosystem? One that is hot and steamy and one that is cooler and more mountainous. Join SciShow Kids to find out where the different rainforests are located and what animals live in each one.

## CREATIVITY CHALLENGE

**MAKE A PLANT SNAKE:** Have your child make a paper plate snake! Use bubble wrap and paint for a fun scaly texture. Don't have bubble wrap? No problem look for other items in the house to use with paint to give texture. (A small sponge or wadded up saran wrap works great!) This craft tutorial from CraftyMorning.com is easy and adorable.

## MOVE

**THE RAINFOREST SONG:** The Rainforest Song by Big Word Club is sure to get your kiddo moving and singing along with this catchy tune and fun animated video. Don't be surprised if they ask to watch it again! They also have fun songs about Toucans and a Green Anaconda!

## FIELD TRIP

### "VISIT" THE RAINFOREST

Take a virtual trip to the Amazon Rainforest with [VirtualFieldTrips.org](http://VirtualFieldTrips.org)!

## SNACK TIME

### BANANA POPS

Give each child a banana on a stick to dip in chocolate and decorate with rainbow sprinkles.
